Purpose

PGY2 pharmacy residency programs build on Doctor of Pharmacy (Pharm.D.) education and PGY1 pharmacy residency programs to contribute to the development of clinical pharmacists in advanced or specialized practice. PGY2 residencies provide residents with opportunities to function independently as practitioners by conceptualizing and integrating accumulated experience and knowledge and incorporating both into the provision of patient care that improves medication therapy. Residents who successfully complete an accredited PGY2 pharmacy residency should possess competencies that qualify them for clinical pharmacist and/or faculty positions and position them to be eligible for attainment of board certification in the specialized practice area (when board certification for the practice area exists).

Description

The PGY2 Critical Care Pharmacy Residency program at ProMedica Toledo Hospital (PTH) is designed to provide advanced training in a variety of practice settings involving the management of the critically ill. Following completion of the program, the graduate will possess the skills necessary to function independently as a competent and confident pharmacy practitioner.

ProMedica Toledo Hospital, a 774-bed tertiary care hospital in northwest Ohio, is a regional center for trauma, cardiology, neurology, intensive care, oncology, obstetrics, and gynecology. ProMedica Toledo Children’s Hospital, a 151-bed hospital within a hospital, is a regional pediatric center for general pediatrics, cardiology, pulmonology, neurology, intensive care, hematology, oncology, and neonatology. PTH offers a twelve-month critical care residency with required experiences in medical ICU, surgical ICU, cardiac ICU, neuro ICU and emergency medicine.

Number of positions available: 1
Program dates: 7/1/2018 – 6/30/2019
Accreditation status: Candidate

Learning Experiences

- Orientation*
- Medical Intensive Care (I & II)*
- Surgical Intensive Care (I & II)*
- Cardiovascular Intensive Care*
- Emergency Medicine*
- Research*
- Neurocritical Care*
- Trauma
- Cardiothoracic Surgery Intensive Care
- Neonatal/Pediatric Intensive Care
- Infectious Diseases
- Academia
- Administration

*Denotes required experiences

Longitudinal Learning Experiences

- Administrative
  - Attend and actively participate in pharmacy and ICU-related hospital meetings
