ProMedica Cancer Institute is dedicated to providing high-quality and convenient cancer care close to home. We uphold our commitment by continually exceeding national standards of care, improving community access to services and education, and investing in innovative technology and research. Our patients are connected to extensive resources, including 11 cancer and infusion centers with 124 treatment areas, 7 linear accelerators, and 1 High Dose Rate (HDR) radiation machine, an expert provider network, and state-of-the-art diagnostic tests and treatments. Below is a snapshot of ProMedica’s oncology service line by the numbers.

### Important Accreditations and Awards

- **American College of Radiology:** Radiation therapy and radiology programs at ProMedica Bixby, Flower, Monroe Regional and Toledo Hospitals are accredited, meeting nationally recognized guidelines.
- **American College of Surgeons’ Commission on Cancer (CoC):** Earned renewal with commendation and the Outstanding Achievement Award.
- **Quality Oncology Practice Initiative:** Our medical oncology program demonstrates a commitment of quality to patients, payors and the medical community.
- **The National Accreditation Program for Breast Centers (NAPBC):** The only accredited breast programs in the region. ProMedica Flower and Toledo Hospitals meet the nation’s highest standards of care.

### Pediatric Recognitions

- **Children’s Oncology Group (COG):** Our pediatric cancer center is a member of the world’s largest organization devoted exclusively to pediatric clinical trials and cancer research, supported by the National Cancer Institute. We are the only member in the region.
